

The Tourtalk TT-C15 charger transport case simultaneously recharges and stores up to 15 Tourtalk transmitter and receivers. The hard case provides protection to the system during transit and storage. The detachable charger tray can either be used within the hard case or used as a desktop charger. The charger tray has 15 charging docks for the recharging of Tourtalk transmitters and receivers (when used with TT-RB rechargeable batteries). Each dock has a battery status LED to indicate when the battery is fully charged.

Specifications

Power requirements: AC 100-240V, 50/60Hz

Power supply: 12V DC (5A)

Charging docks: 15 transmitters/receivers
